## Employee Success Story

### **Frank Galle, Business Analyst**

I have worked in the Electric and Gas Utility business for approximately 52 years in a variety of positions, including Electric and Gas Operations in the field as well as Customer Services areas, such as Billing.

One of my more interesting projects was implementing a new two-way radio system at Alliant Energy. It involved procurement of radios for vehicles and property to build towers or lease tower space on other existing towers to place antennas, etc.

I have four grown children - three girls and one boy. I also have two grandsons, three brothers, one sister and a herd of nieces and nephews!!!

I enjoy watching my grandson participate in sports, my annual trip to Las Vegas and, most importantly, spending time with family. Aside from working three days a week, I also enjoy golfing and kicking back at home.
